Rupesh Dhakal

Full Stack Developer

Address: **Nepal**
Email: **rupeshdhakal2@gmail.com**

I'm a full-stack developer who enjoys turning ideas into smooth, functional, and user-friendly digital experiences. I work across both frontend and backend, always aiming for clean, efficient, and high-quality results. I'm constantly learning, adapting, and looking for opportunities to collaborate on creative and impactful projects.

EXPERIENCE

Digital8, Australia
August 2023 - May 2025

Full Stack Developer

- Built and maintained full-stack apps using Laravel (REST APIs, authentication, roles/permissions).
- Developed SSR frontends with React and Next.js, using reusable components and clean architecture.
- Integrated third-party services like Braintree, Stripe, and external APIs.

Global English Campus, South Korea
June 2021 - August 2023

Full Stack Developer

- Worked as a full-stack developer handling both frontend and backend logic.
- Mainly used Laravel (backend) and Vue.js (frontend) for development.
- Guided and supported junior developers in the team.
- Used Electron and Three.js for desktop application development and 3D WebGL projects.

Alpha Tech, Nepal
March 2019 - July 2021

Full Stack Developer

- Started web development career working with Vue.js (frontend) and Laravel (backend).
- Used technologies like MySQL, Git, CMS, WordPress, Flutter, and CI/CD tools.
